■ INTERIOR DESIGN DEVELOPMENT
REDESIGN PRESENTATION
SEPTEMBER 20TH, 2023

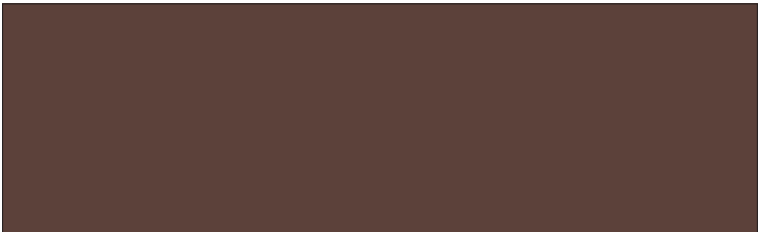

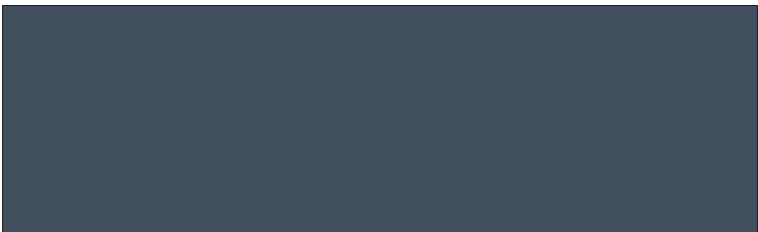

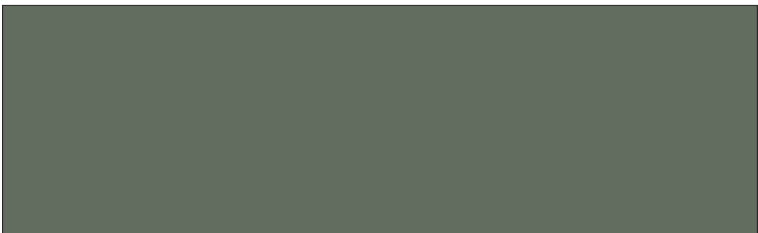

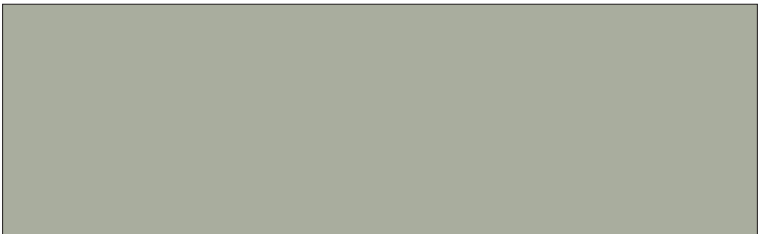

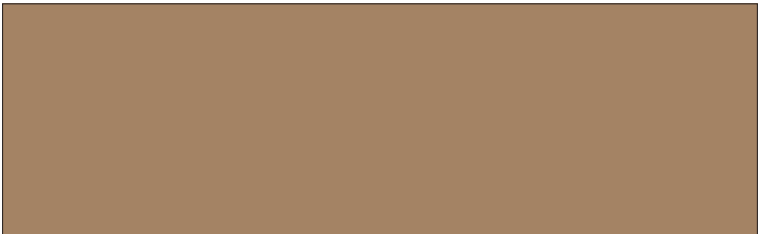

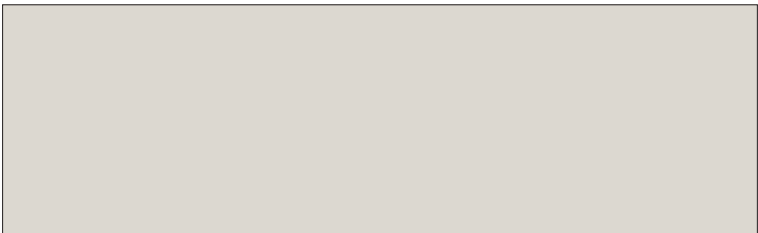

CONCEPT STATEMENT

The Windsong of Sonoma located in Petaluma, California is updating their interiors to capture the essence of coastal wine country. The renovation will include elements throughout that incorporate weathered woods and natural stone mixed with earth tones and worn leather looks. The design will nod to the local historical wineries to make it feel more included with its surroundings. Furniture with both modern lines and more traditional frames helps to blend the existing style with the new. Artwork that captures the rolling hills of vineyards and rocky coastal landscapes mixed with abstract pieces with pops of color aims to resonate with the residents and put the finishing touches to the design.
